# Experience Authentic and Immersive Exploration

Over the course of a nearly 20-year partnership, Lindblad Expeditions and National Geographic have created meaningful travel experiences that foster a passion for the planet and its people. From the moment you join one of our tall-ship expeditions, you access all the resources that stem from this shared legacy of discovery.

## Elegant Ships Befit for Celebrated Ports

Certain destinations are best discovered aboard bespoke vessels that evoke the splendor of their historic ports of call. For voyages in the Caribbean and the Mediterranean, we travel aboard elegant tall ships from the Sea Cloud fleet—traditional square-riggers that harken back to the Golden Age of Sail. Whether you board the historic *Sea Cloud* or her modern counterpart, *Sea Cloud II*, you will experience all the glamor and thrill of traveling with the winds as

they fill the ship's sails. With a group size that never exceeds 58 guests on *Sea Cloud* and 88 guests on *Sea Cloud II*, the atmosphere is intimate and

relaxed, inviting complete immersion in a sailing experience of yesteryear.

## Travel With the Most Experienced Team

Explore with an expedition team devoted to ensuring you have unforgettable and enlightening experiences: historians who give context to seaside castles and fortifications, cultural experts who interpret celebrated culinary traditions, archaeologists who bring the ruins of antiquity to life. Many of our veteran guides live in the destinations we visit and have worked with us for decades. On select departures, you will also be joined by fascinating guest speakers—including National Geographic Experts—who offer new layers of insight into the places we explore.

## Take Great Photos With the Pros

A Lindblad Expeditions-National Geographic certified photo instructor

(CPI) joins every voyage, and a National Geographic Photography Expert accompanies select departures. These experts will be on hand to assist travelers with everything from camera settings to composition. Every guest—from iPhone camera users to advanced hobbyists—can stand side by side with top photographers and return home with the photos of a lifetime.

## Enriching Cultural Encounters

Voyages aboard the tall-ship fleet offer abundant opportunities to share in local culture and explore a destination through its customs, culinary specialties, and musical and artistic traditions. Learn about the marsala-making process from a vintner in Sicily or sample culinary specialties from markets in Mallorca as you explore alongside a local chef. Because Sea Cloud ships are small and nimble, we can travel to secluded harbors away from the popular tourist ports, giving you a more personal perspective on the places we visit.

**EXCLUSIVE SAVINGS:** *Groups of eight or more travelers save 5% off the cost of their voyage. Guests who join back-to-back voyages save 10% off the cost of each expedition.*

## The Art of Sailing

One of the great joys of traveling aboard a traditional tall ship is witnessing the theater of her spirited crew as they raise and lower the sails by hand en route to our next destination. Whether you are just beginning your journey or have already seen the process dozens of times, it is always thrilling to watch acrobatic sailors climb the rigging, loosen the heavy cloth, and haul the lines in from the deck—performing a grand choreography that never ceases to mesmerize. On both *Sea Cloud* and *Sea Cloud II*, nothing happens at the push of a button—often, almost a full hour passes before all the sails can catch the wind.

The genuine camaraderie between captain and crew allows them to work in concert. Many of the sailors have been with the *Sea Cloud* fleet for decades, and for them, the square-rigger is home. As a guest on board these special ships, you become part of their

family. The crew is eager to show you the art of their daily work among the ropes, winches, and cleats. And the captain's bridge is always open for an in-depth look at the intricacies of turn-of-the-century navigation, before steamships dominated global waters.

While at sea, the ship engines are only used when necessary, allowing you to become fully immersed in a tranquil sailing experience. Settle into a deck chair with a book and spend long hours under sail, enjoying balmy sea breezes and soaking in the beauty of your maritime surroundings.

SEA CLOUD

# Sail Aboard a Legendary Square-Rigger

Clockwise from far left: *Sea Cloud* under sail; Marjorie Merriweather Post's lavishly appointed Owner's Suite; Guest reading in the Blue Lagoon.

Below: Marjorie Merriweather Post and her daughter, Dina Merrill, aboard *Sea Cloud*.

A legend of both her time and today, the historic square-rigger *Sea Cloud* whisks travelers away to the golden age of yachting, when the billowing sails of majestic windjammers graced ports around the globe. Built in 1931 for the heiress

Marjorie Merriweather Post, *Sea Cloud* is the last of the private tall ships and the most beautiful vessel wherever she sails, turning heads from the Caribbean to the Mediterranean.

*Sea Cloud's* gleaming wooden masts carry 30 sails, which are raised by hand as you venture out to sea. Settle into the comfortable banquette of the ship's "blue lagoon" and take in the theater of sailors climbing the rigging and catching the wind. The covered lido bar is a relaxing spot for a refreshing

drink, and the captain's open-bridge policy invites guests to take an up-close look at the intricacies of sailing this traditional four-masted barque.

The ship interiors are no less alluring, with every detail—from the marble fireplaces to the French antiques—reflecting the extravagant charms of American royalty. Marjorie Merriweather Post was instrumental in designing the staterooms and shared spaces, many of which are outfitted with antiques and period-style furnishing. The 30 outside-facing cabins are uniquely decorated and have hosted illustrious guests from princes to presidents, and cabinet members to celebrities. No accommodations are more lavishly appointed than the two owners' suites: a rich, wood-paneled sanctuary that belonged to Post's financier husband, E.F. Hutton, and the heiress' all-white dream emanating superb Louis XVI style, gold fittings and all.

While *Sea Cloud* is considered a destination unto herself, she is equipped with Zodiacs for shore excursions and with snorkeling gear for undersea exploration in the Caribbean.

SEA CLOUD II

# A Modern Take on a Classic Ship

*Expansive outdoor decks and viewing areas tempt guests to soak in Mediterranean scenery and savor the romance of traveling under billowing sail.*

Inspired by the historic tall ship *Sea Cloud*, she celebrates the time-honored traditions of her fleet: the hand-raising of her sails, nightly sundowners on deck, and an open invitation from the captain to visit the ship's bridge. With modern amenities and exquisite style, *Sea Cloud II* combines the spaciousness of a contemporary vessel with the grace and elegance of a classic square-rigger.

Expansive outdoor decks and viewing areas tempt guests to soak in Mediterranean scenery and savor the romance of traveling under billowing sail. Al fresco dining—accompanied by a pianist and fresh sea air—is offered on the lido deck, where conversation flows and camaraderie comes naturally. While the ship's lavish indoor spaces, like a sizable dining room and lounge, are suitable for formality, there's a lighthearted delight to enjoying them in casual dress. Guests can also take advantage of a cozy library stocked with books on the region and a spa that offers a sauna, fitness area, and massage therapy.

From elegant bathrooms and silk-upholstered furnishings to flat-screen televisions and minibars,

each of the 44 outward-facing cabins on *Sea Cloud II* is outfitted with luxurious and modernized amenities. Sleep like royalty amid mahogany and marble and wake up to bedside views of sapphire seas or the colorful harbor of a quaint fishing village.

Spend days ashore exploring storied Mediterranean destinations from Italy to Croatia and beyond. Or simply settle into a lounge on deck and immerse yourself in the splendor of a bygone era, enjoying balmy breezes and the spectacle of the *Sea Cloud II* crew working the rigging.

Clockwise from far left: *Sea Cloud II* under sail; Light-filled category 6 cabin; Guests relaxing on deck during day at sea; The bright and comfortable library.

# Life on Board

*Sailing aboard a Sea Cloud ship is an experience that is at once grand and effortlessly casual—a rare chance to get immersed in old-world elegance on a supremely comfortable yacht that feels like home.*

## Relax in a Comfortable and Casual Maritime Atmosphere

When Marjorie Merriweather Post designed *Sea Cloud*, she achieved the perfect balance of opulence and comfort, creating a space where her affluent friends could unwind under sail, enjoy al fresco meals, and anchor at sea for an impromptu dip. That relaxed, yet elegant atmosphere continues to this day and has been seamlessly adopted by *Sea Cloud II*. Every aspect of your experience is laid-back and conducive to casual dress, including special events, like the fresh tuna dinner in the ship's sumptuous dining room.

## Savor the Flavors of Your Destination

The Sea Cloud fleet is known for its outstanding cuisine, crafted by chefs who have trained at some of the world's top restaurants. Fresh, locally sourced ingredients feature prominently at every meal, including fish and seafood sustainably caught from the surrounding waters. For breakfast and lunch, guests can help themselves to a buffet of fresh fruits, breads, and salads as well as an array of hot dishes. *Sea Cloud* and *Sea Cloud II* also carry curated selections of complimentary beer, wine, liquors, and liqueurs that guests can enjoy throughout their journey.

## Enjoy Immersive Exploration on Board

Guests traveling aboard *Sea Cloud* and *Sea Cloud II* enjoy the immersive programming that is the hallmark of a Lindblad Expeditions-National Geographic voyage. Delve into your destination during talks from our experts, and enjoy evening recaps that highlight your group's discoveries and set the stage for the next day's adventures.

# Must-See Sights, Hidden Delights

*When you travel aboard a Sea Cloud ship with Lindblad Expeditions-National Geographic, you explore on expertly crafted itineraries that take you to storied sites and secret gems far from the crowds. Discover iconic landmarks, from the ancient stadium at Olympia to the Doric temples of Sicily, and enjoy exclusive experiences, like a Croatian peka lunch at a family-owned winery in Vis.*

## See Sicily's Classical Icons

Take in some of antiquity's most magnificent Greco-Roman ruins in Agrigento's Valley of the Temples, a UNESCO World Heritage site where grand rows of Doric columns stand stunningly intact, marking devotional sites for Zeus, Heracles, Castor and Pollux, and other gods of ancient mythology.

## Discover a Hidden Italian Paradise

Colorful Camogli could be a stand-in for Sorrento or Portofino, minus the Amalfi Coast crowds. Learn about this once-bustling Golfo Paradiso seaport as we stroll charming, crooked lanes lined with pastel buildings and sample local culinary specialties from the region that gave us pesto and focaccia.

---

**ALL IN:** Activities and excursions are always included in the voyage price.

## Delve into a Caribbean Culture

Explore Dominica, the “Nature Isle of the Caribbean,” with local women whose knowledge of the rainforest’s flora and fauna is deeply intertwined with local cultural expressions like music and cuisine. Our welcoming hosts readily share their personal stories, including how they are rebuilding following Hurricane Maria.

## Go Back to the Bronze Age in Sardinia

In the second millennia B.C., a conical defensive structure known as *nuraghi* developed on Sardinia, which harbors the finest remaining example of this unique architecture: Su Naraxi di Barumini. After visiting this World Heritage site, delve into its history at a nearby archaeological museum.

## Let the Games Begin in Olympia

Witness the birthplace of the ancient Olympic Games, which pitted athletes from rival Greek city-states against one another in competitions such as running, boxing, and chariot racing. Explore this World Heritage site, including the Olympic Stadium, and visit the impressive Archaeological Museum nearby.

## Stroll the Delightful Lanes of Ljubljana

When Ljubljana became the symbolic Slovene capital after the fall of the Austro-Hungarian Empire, architect Jože Plečnik upgraded the city to match its new stature. His World Heritage works—including bridges, parks, and other public spaces—are a premiere example of human-centered urban design.

## Visit the Crown Jewel of Croatia

The island of Vis was a Yugoslav military base during World War II and only opened to travelers in the 1990s. Tourism has been slow to take hold here, which makes for a delightfully authentic atmosphere as we tour the fishing town of Komiža and enjoy a traditional *peka* lunch at a family-owned winery.

## Dine in a Private Sicilian Castle

Sit down to a private lunch of Sicilian specialties at the Castello degli Schiavi—a privately owned villa that provided a beautiful Baroque backdrop for some of the most pivotal scenes in *The Godfather* movies. Guests will also be invited to the wine cellar for a private tasting of local varietals.

The water is a deep blue with gentle ripples. The sailboat is positioned on the right side of the frame, its mast and rigging visible against the sky.

# Sailing the Caribbean & the Mediterranean

The windjammer is at home on both Caribbean waters and Mediterranean seas, with sails that gracefully festoon colorful ports with illustrious pasts. Let the trade winds guide you through the Windward Islands, between the tiny, gem-like islets sprinkled across the Caribbean's turquoise expanse.
